## Areas of Expertise

### Banking & Finance

#### Domestic and cross-border financing

Our lawyers provide assistance in bank lending transactions by drafting documents and structuring appropriate security packages to take advantage of the Luxembourg security legal framework. We represent domestic and international lenders and borrowers on a wide range of financing transactions, including senior and subordinated financings, acquisition financings and asset-backed financings.

Working in synergy with our investment management and tax team, our banking & finance lawyers can also provide comprehensive assistance on fund financing deals. They can advise borrower-funds, banks and alternative lenders on capital call subscription credit facilities, bridge facilities and permanent leverage facilities including advice on security packages and assistance with legal due diligence of fund documentation.

#### Debt restructuring

Our team has many years of experience helping companies facing financial difficulties on a wide range of debt restructuring issues, including cross-border restructuring and refinancing.

We provide business-oriented advice to borrowers, creditors and shareholders on available instruments for restructuring under Luxembourg law.

We offer a full range of legal services in restructuring, insolvency and bankruptcy. Our lawyers have repeatedly represented the interests of both debtors and creditors in a number of restructuring transactions.

While working on restructuring and bankruptcy projects, we team up with our tax and corporate law specialists to optimize the result for our clients.

#### Debt capital markets

Our lawyers have extensive experience in providing legal support to issuers, arrangers, guarantors and institutional investors in public and private offerings of debt securities in Luxembourg.

We act as legal advisors to many leading arranging banks operating in Europe and we frequently advise and act as listing agent to foreign and domestic issuers on the listing and admission to trading of securities on the Luxembourg regulated market and Euro MTF.

#### Sustainable/green finance

The future is green. In Luxembourg and within BSP we are of the strong opinion that sustainability and green values will play a major role in the future of the financial industry. At BSP, we look forward to accompanying our clients every step of the way up to and beyond the listing of securities on the world's first and leading platform dedicated exclusively to sustainable financial instruments, the Luxembourg Green Exchange (LGX).

Furthermore, in anticipation that the financial regulatory field will change significantly over the course of the coming years, shifting more and more towards sustainability and green thinking, we at BSP are dedicated to be your strong and committed partner in all of your future green financing and environmental, social and corporate governance endeavours.

#### Structured finance
